SUMMARY

I want to introduce myself and my skills in a way that is clear, concise and catches the reader's attention. I am a *Jr. MERN Stack Developer* and want to establish as a Web Developer in different local, international, multinational organizations.I specialize in JavaScript/TypeScript and work fluently across both front-end and back-end development. With hands-on experience in HTML,CSS JavaScript,MongoDB, Express.js, Next.js React, and Node.js, I build RESTful APIs, responsive UIs that deliver seamless user experiences. I'm passionate about clean code, performance optimization, and solving real-world problems through technology.
